You've made the right choice.

With Ubiquity, you've got your choice of plans designed specifically to meet the needs of a small and growing business. Based on what you've given us, we think we may have found the perfect plan for you.

And don't worry – if there are questions along the way, we're here to help. We speak your language: Human.

Your future self thanks you. And so does your bottom line.

Finding the right plan has never been easier. With Ubiquity, you can:

Save at work

You can save as much as \$18,500 per year, pre-tax, and YOU decide how much you want taken out of each paycheck.¹

Attract and retain employees

It's a fact: If you provide better benefits, you will attract and retain a higher-caliber staff. What does that mean? Happier employees and a more profitable business.

Reduce taxes

First timers, jump on board. If you're new to 401(k), you may qualify for a \$500 tax credit for the first three years. Plus, plan setup expenses are tax-deductible.²

And that's just the start. With Ubiquity, we take the guesswork out so all you're left with is, "Well...that was easy." It turns out that rocket science is really about rockets. And your 401(k) plan can be as simple as point, click, and done.
